Technical Notes:

1. The Economic Information & Analysis (EI&A) Division measures economic indicators such as employment, unemployment and job openings on a seasonally adjusted basis. EI&A also collects, compiles, analyzes, publishes and distributes a variety of Workforce, Career Resource and Labor Market Information and is the State of Illinois' primary source of labor market statistical data.
1. The reference period is a midmonth total that begins with the week that includes the 12th day of the month. Example: Month of August is the time period July 14 – August 13.
2. This report represents industries that post online job ads. Hiring practices of some industries, such as construction, do not typically post their job openings online.
3. The Conference Board is a global, independent business membership and research association working in the public interest. The Conference Board Help Wanted OnLine® Data Series (HWOL) measures the number of new, first-time online jobs and jobs reposted from the previous month for over 16,000 Internet job boards, corporate boards and smaller job sites that serve niche markets and smaller geographic areas. Occasionally, job board ads may be listed under an erroneous location and this will then become incorporated into the HWOL data series.
